December 26, 2008

We hope everyone has enjoyed a wonderful holiday celebrating the birth of Our Savior with family and friends. As with most holidays, they pass all too quickly but heck, it's a great time to be out hunting!

December 18, 2008

Mike Cox, Sr. harvested a magnificent "Gold Medal" Armenian Mouflon with guide Jim Roche. The following morning Jim guided "Sr" to a 42 inch gold medal scimitar horned oryx. Later that same day "Sr"

completed his exotic safari by harvesting a 39 inch gold medal Gemsbok bull. Mike Cox, Jr. scored on a nice Williams Ranch "free range" 10 point whitetail and 9 year old Trevor harvested his first buck ever, a really big 8 point, along with 5 doe deer.

Way to go Trevor!

December 12, 2008

Stu Lilly started off our 2008 West Texas Mule Deer Hunt with a huge 10 year old "free range" aoudad ram harvested from a herd of 125 sheep. Rider Knowlton, led by MGS guide Neil Grant, saddled up their packs and made the climb into a herd of 75 wild sheep for Rider's big ram. On the way back down the mountain Rider scored again on a nice boar javelina. MGS owner Jim Roche and "Magnum Hunter" Craig Heator rodeo'd up a rocky ridgeline in Magnum's Jeep Rubicon to access a small herd of 20 sheep. Craig made a fantastic 188 yard shot on a really wide horned ram. "Veteran MGS Hunter" Lew Miller scored on a nice 10 point mule deer to end the first day of the hunt. The second day came and went with Craig harvesting a nice mulie buck. The third

morning dawned with Jim and Stu perched high upon a mountain top glassing valleys far below. An old monarch was spotted gathering his harem of does. After a lengthy stalk, Stu downed the 8 ½ yr old buck with his custom Hill Country Inc. rifle. The last morning of the hunt found Neil and Rider perched on the same vantage point. An hour and a half later Rider proudly posed his 13 point buck for Neil's camera. About the same time Jim was photographing a smiling javelina hunter named Stu!

December 6, 2008

Our second "Free Range Whitetail Hunt" on the famous "Encino Ranch" went extremely well with Griff Gleason harvesting a terrific 159 inch buck. This buck was photographed during a doe/cull buck hunt the first weekend in October two miles from where Griff harvested him. At some point the buck broke one of his browtines taking him from 163 to 159. Still a great free range whitetail, any day, any where! MGS guide Donnie Kovar guided Kenny Sumrall to a 12 point, 146 Encino buck. Bob Chain borrowed

Jim Roche's custom sniper rifle to "snipe" a huge trophy management buck at 248 yards. Bob's shot took out the top of the 8 ½ yr old buck's heart! Way to go Shooter! MGS guide, Travis Honneycutt put Greg Clearman on a nice 10 point.
