

# *In Loving Memory*

## *Mike Cox*

Hey Jim and Melony:

I just wanted to let you know that Mike passed away on February 26th. We had gone to the hospital a few days earlier thinking that he might have pneumonia and three days later he passed away. Mike was up working right up to the time we went to the hospital. He was such a fighter and fought this battle to the very end. I have never seen anyone with such a fighting spirit. I had prayed so selfishly that he would be healed and have more time with me and his family. But that morning I felt his pain and prayed that he would not suffer and a couple hours later God took him home. I know that he is so much better off but I'm not sure what I will do without him. I will truly be lost. Thank you guys for befriending Mike and giving him a hunt of a lifetime. Jim, I know that you took him to church when he was there and prayed for him. He had such a wonderful hunt and never stopped talking about it to all his friends and family. All three animals were ready at the taxidermy and Mike got to see them but we didn't get them home before he passed.

Mike, Jr. talks a lot about the hunt as well and wants to come back maybe on a predator hunt. Again, thanks so much for all your prayers and concerns.

Your friend, Donna from Arkansas
